

Barefoot Power 55L 12V DC Fridge Kit

The Barefoot Power 55L Fridge Kit can hold 70 standard drink cans and includes;

1. 55 litre Barefoot Power fridge with top of the range Danfoss BD35K R600a compressor
2. 20Amp Barefoot Power solar controller
3. 160W solar panel
4. 75.6Ah, 12V AGM SLA battery
5. All cables (no tools required for installation)

To maximize performance and power efficiency the fridge comes with an adjustable thermostat. It is recommended that the temperature be set between 5 and 10deg C.

The fridge must be installed indoors in a shady cool area.

Barefoot Power provides a 12 month warranty on this system.
